

# DURAPOST® BIRD'S NEST TRELLIS

## DESCRIPTION

The DuraPost® trellis is an exceptionally robust and enduring steel product that effortlessly adds a touch of contemporary elegance to any fencing solution. Its unique 'birds-nest' design not only enhances the visual appeal but also offers excellent strength. Meticulously crafted to seamlessly integrate with the DuraPost® 'classic' fence post, this trellis ensures a hassle-free and swift installation process while guaranteeing long-lasting durability.

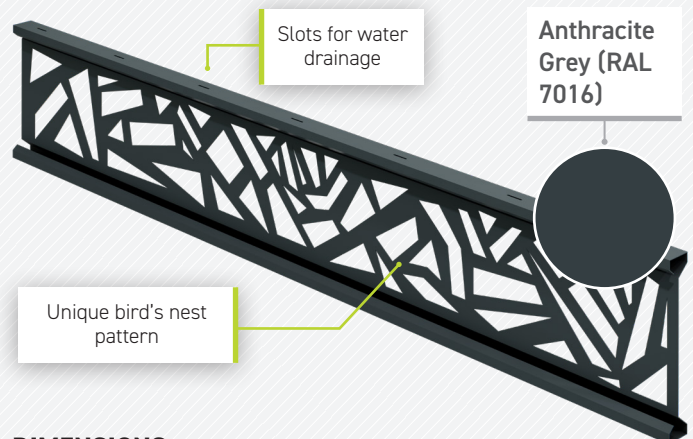

## CONSTRUCTION

Constructed from pre-galvanised steel (DX51D Z275NA-C) to EN 10346. For enhanced corrosion resistance the trellis is powder coated to BS 13438.

## KEY BENEFITS

- Enhances the style and design of your boundary.
- Simple and easy to fit (2-4 screws required, one in each corner). See page 2 for fitting instructions.
- Can be cut down to custom length.
- May be stacked for custom height screens or fixed vertically or horizontally to a house wall to create a modern feel for your outdoor area.
- RAL 7016 anthracite grey finish to match DuraPost® finishes.
